

Problem 1: Student Management System

Problem Statement

Create a class named **Student** to store and display a student's details.

Requirements

1. Create a class Student.
2. Define the following instance variables:
 - student_id
 - name
 - course
 - marks
3. Create a method accept_data() to take input from the user.
4. Create a method display_data() to display all student details.
5. Create another method check_result() that:
 - Displays **"Pass"** if marks are **35 or above**
 - Displays **"Fail"** otherwise.
6. Create an object of the class and call all the methods.

Sample Input

Enter Student ID : 101

Enter Name : Rahul

Enter Course : Python

Enter Marks : 78

Expected Output

----- Student Details -----

Student ID : 101

Name : Rahul

Course : Python

Marks : 78

Result : Pass

Problem 2: Bank Account System

Problem Statement

Create a simple **Bank Account** class that allows users to deposit and withdraw money.

Requirements

1. Create a class BankAccount.
2. Define the following instance variables:
 - account_number
 - customer_name
 - balance
3. Create the following methods:
 - accept_details() – Accept account details from the user.
 - deposit(amount) – Add the amount to the balance.
 - withdraw(amount) – Deduct the amount if sufficient balance is available; otherwise display **"Insufficient Balance"**.
 - display_balance() – Display account details and current balance.
4. Create an object of the class.

5. Accept a deposit amount and a withdrawal amount from the user and perform both operations.

Sample Input

Enter Account Number : 1001

Enter Customer Name : Anjali

Enter Initial Balance : 5000

Enter Deposit Amount : 2000

Enter Withdrawal Amount : 4500

Expected Output

Deposit Successful.

Withdrawal Successful.

----- Account Details -----

Account Number : 1001

Customer Name : Anjali

Current Balance: 2500

Sample Output (Insufficient Balance)

Enter Withdrawal Amount : 9000

Insufficient Balance.

----- Account Details -----

Account Number : 1001

Customer Name : Anjali

Current Balance: 7000
